PROFESSIONAL EXPERIENCE

Senior Flutter Developer | 2020–Now

myTeam

- Lead the full-cycle development of cross-platform iOS and Android applications using Flutter, ensuring high performance and code quality.
- Maintain and optimize the Laravel API backend to ensure seamless integration and robust data synchronization with mobile clients.
- Orchestrate the release lifecycle by managing automated CI/CD pipelines and handling all deployments to the Apple App Store, Google Play and AppGallery.

Freelance | 2018–2020

- Delivered custom cross-platform mobile applications using Flutter, handling the complete development lifecycle from concept to app store deployment.
- Developed and launched responsive websites, ensuring high performance, SEO optimization, and seamless user experiences across devices.
- Translated client requirements into technical solutions, managing timelines and deliverables effectively to ensure customer satisfaction.

EDUCATION
